CARE INSTRUCTION

Axis Side Table

KRISTINA DAM
Studio

Axis Side Table

Congratulations on your new Kristina Dam Studio design!

The design of the Axis Side Table consists of geometrical shapes that form a solid, timeless side table with references to the classic trolley. The clean construction has an architectural and sculptural expression, showcasing the warmth of the wood. Crafted from oiled FSC-certified oak.

The oiled treated wood will develop a natural patina that becomes more beautiful over time. Wipe with a clean, dry cloth, and if needed, only use a soft cloth wrung in hot water, wiping with a dry cloth immediately after.

Do not use any solvents, chemicals, or cleaning agents with sanding qualities, as these will permanently damage the surface.

Indoor use only.

Design: **Omayra Maymó**

“Omayra Maymó is one of Spain’s most talented interior designers, and it is a true pleasure collaborating with a person who is so meticulous in her design process and so passionate about every single curve, detail and line in the final product.”

Kristina Dam Studio

Studio

Arches and architecture are the essences of the Kristina Dam Studio's monochrome collections. Founded in 2012 by graphic designer Kristina Dam with the initial design idea for the studio to create industrial designs with an art-based approach, making art and sculptures accessible to everyone.

At Kristina Dam Studio, we call our design approach "Sculptural Minimalism". We define sculptural minimalism by merging the artist's meticulous attention to detail with the architect's vision and spatial understanding.

The respect for nature's materials is integral to every piece, the passion for diligent craftsmanship is evident in every item, and each design is more than just interior objects.

All our products are made from high quality and long-lasting materials. Please follow our care instructions and treat your new item accordingly.

All products are designed in Copenhagen, Denmark.
