<i>PACKAGING WEIGHT</i>	28 kg (20 pcs)
<i>COMPLIANT WITH</i>	

VARIATIONS

 DARK GREY
Art. No.
508530010032

 TAUPE
Art. No.
508530044032

CARE GUIDE — TEXTILE

HOW TO CLEAN / POLISH

HAND WOVEN, RPET

Material: The doormat is made of RPET yarn. Created of recycled plastic bottles making the REDONO doormat an environmental friendly alternative suitable for any household. The material endures dirt, water and sunlight and the doormat is therefore perfect for both indoor and outdoor usage. Properly hang and dry the doormat if it is placed outdoors and has been exposed of rain for longer periods. Do not let the doormat soak in a bath or tub of water.

Daily cleaning: Use the vacuum cleaner frequently and avoid powerful vacuum heads and stiff brushes as it might damage the doormat. Shedding of the doormat is normal and can carefully be cut away using scissors.

Stains: Immediately dab the area with a damp cotton cloth to prevent the stain from penetrating the fibers and if necessary rinse with some mild detergent. The doormat can also be rinsed with a garden hose. If stains does not disappear after rinsing a professional should clean the doormat. Never clean with chemicals.

(Floor protection: To protect the doormat, carpeting and floors, such as the finish on varnished floors, vinyl floors and oiled and untreated floors, it is recommended to use a rug pad. The rug pad will also avoid colour transfers to carpeting or floors and serves as protection from heavy furniture and slipping.)

(As the doormat is handwoven a size deviation +/-3% is accepted)

STORYTELLING

REDONO DOORMAT / BY AYTMD DESIGN TEAM

REDONO means to "reuse" or "remake" – and that is exactly what this item does. The REDONO collection consists of doormats and rugs that are handwoven and made of 100% RPET yarn. The RPET yarn is made of recycled plastic bottles making these designs both fashionable and sustainable. The look and feel of the doormats and rugs are in no way compromised in the process. They are as elegant and durable as always, making them beautiful long-lasting pieces for your home. The use of RPET yarn even makes them suitable for outdoor use. Place the REDONO doormat at your back entrance or in the hallway for a warm and welcoming effect.
