## First day of spring

*The collection grows*

The story of New Works keeps evolving and we take pride in continuously nourishing our curiosity to seek out new paths as excited and encouraged as on the first day of spring. As we explore, experiment, listen and learn, our product lines grow and new creations sprout.

This spring, the rounded volumes and expert craftsmanship of the Covent line by Arde is reinterpreted into three new designs. With the additions of the Covent Club Chair, the Covent Lounge Chair Narrow and the Covent Residential Sofa, the design unfolds into new silhouettes — each with their own purpose, and together offering countless opportunities to create both hospitality and residential environments from the breath of the series.

Other lines extend their scope. The boxy walnut coffee table from the Mass series by Lim + Lu has evolved into new formats for living, and more functional elements have been added to the New Works Shelving System aimed at inspiring creative storage solutions for the home office, studio, wardrobe, and hall.

We also continue our exploits into portability, with the curious, minimal table lamp, Brolly, designed by New Works' creative director, Knut Bendik Humlevik. Along comes new warming red-toned versions of the Kizu Lamps by Lars Tornøe, and a waterproof and portable version of the Karl-Johan Table Lamp by Signe Hytte. Its forest floor-inspired outline feels right at home in outdoor settings.

The Karl-Johan portable pairs perfectly with the new May outdoor furniture family designed by Hannes & Fritz, creating a calm and comfortable setting for alfresco dining. With the addition of the May family, the New Works universe formerly extends out into open air, providing both furniture and lights for the time spend on the patio or balcony.

We hope these new designs will make their contribution to the creation of your happy places. That their poetic nature will make you feel as when the first fresh breeze of spring air greets you. Senses awakened. Inspired and at ease.

CHAPTER I

LIGHTING

## Brolly Portable Table Lamp

*Knut Bendik Humlevik*

Brolly is a portable table lamp made in brushed steel which demonstrates the strength of simplistic shapes. Precise and considered, this elegant little light displays the kind of thoughtful, almost deceptive, simplicity that makes it a timeless particular in any decor. Although the design adheres to strict geometry, the lamp attains a finely whimsical presence from the seemingly delicate rod supporting the conical lampshade.

## Karl-Johan Lighting Series

*Signe Hytte*

The Karl-Johan lighting series is inspired by excursions into nature. A search for wild mushrooms. The tones of an autumn forest. The soft yet distinct silhouettes of the line's pendants, wall lamps and table lamps are equally suited to residential and hospitality settings.

## Karl-Johan Portable Table Lamp

*Signe Hytte*

As a poetic tale, the Karl-Johan lamp now finds its way back to its source of inspiration: nature. Karl-Johan Portable is a small and easily transportable version of the original design, where the soft design language, which characterises the lamp, has been made particularly durable. This makes it possible to take the lamp out into the elements of nature; on the terrace from the first early spring evenings and for a swim on the beach on a warm summer night.

## Margin Lighting Series

*John Astbury*

The Margin lighting family is designer John Astbury's modern interpretation of a classic luminaire. Exploring a tiered typology for lighting, Margin's intersecting shades gently diffuse the light and instantly set the tone with warmth and tactility. The softness of the fabric is tempered by a clean and graphic silhouette that lends a certain presence and volume to a space.

## Kizu Table Lamp

*Lars Tornøe*

Composed of two bold sculptural forms, the Kizu Table Lamp displays a weightless balancing act. The illusion of gravity creates a tension within the piece, while its curved forms initiate a calming effect. This kissing point of material and function creates an object in perfect harmony.

## Kizu Portable Table Lamp

*Lars Tornøe*

Balancing bold forms, the Kizu table lamp intrigues the eye with its sculptural composition, and this portable version of the lamp is no exception. Materials and expression are as we know them, but this cordless, smaller size is easy to move around where light is needed. With marble as the bearing element, the lamp obtains natural stability and the polished stone feels comfortable to the touch.

## Lantern Lighting Series

*Anderssen & Voll*

The versatile Lantern series covers every aspect of the contemporary interior, ranging from pendants to floor lamps. Inspired by traditional Japanese rice paper lanterns, the series features simple black steel supports and fixing that allow the soft illumination of the rippled glass globes to shine brightest.

## Material Lighting Series

*Nørgaard & Kechayas*

The Material series highlights the power of simplicity in form. Each light in the series can become a standout piece within a room, or be used to complement those around it. From the warmth of oak, to the roughness of concrete, the richness of terracotta, and the radiance of steel, the Material series offers a versatile addition to any space.

## Tense Pendant Lamp

*Panter & Tourron*

Stretching to over one metre in length, the Tense Pendant Lamp appears like a soft cloud has floated in. Its soft Tyvek diffuser represents a material both durable and soft – whilst being 100% recyclable. Finished with a slimline LED light source, all components fit into a slim box for ease of transport. A truly modern approach to lighting.

## Tense Portable Table Lamp

*Panther & Tourron*

With advanced technical features and sensuous attributes, designers Panther & Tourron put forward an aesthetic and modern take on a table lamp. The battery-powered light can easily be moved around where light is needed and both colour temperature and brightness can be adjusted to the desired ambiance. Charging is conducted with a magnetic charging cable, which attaches seamlessly to the base and can be left in without disturbing the look of the lamp.

## Tense Wall Lamp

*Panter & Tourron*

In their Tense series for New Works, designers Panter & Tourron explore aspects of material tension, giving life to airy and flowing shapes. The dreamy cloud-like shade of the Tense Wall Lamp softly diffuses the light and creates a sculptural feel that suits a wide range of architectural settings. When the light is on, the crinkled texture is accentuated in a delicate exchange of light and shadow.

## Sphere Adventure Light

*New Works Studio*

Sphere is a sculptural luminous object that you can take with you everywhere you go. With its geometric crescent shape this portable light lends an air of mystery to its surroundings, while offering long-lasting utility through clever features. The lamp is water, dust, and impact-resistant and features a light dimmer, and a strap for holding or hanging the light. Take Sphere out onto the balcony, patio, or on excursions to the forest, beach, or park. This alluring lamp is ideal for outdoor gatherings that last beyond dusk.

FURNITURE

## Covent Lounge Series

*Arde*

The Covent Sofa and Covent Lounge Chair present a universe of warmth. Showcasing expert detailing and craftsmanship, this pair invites you to nestle within and feel the tenderness of each upholstered surface.

Covent Lounge Chair  
*Sacho Nabis 019*

## Covent Residential Sofa

*Arde*

The Covent Residential Sofa is a new lounge-worthy version of the classic Covent Sofa, featuring a relaxed extended seat and loose cushions. While keeping to the elegance that the series is known for, the Covent Residential Sofa offers a homely comfort. The firm curved exterior and gently defined armrests retain the distinct precision synonymous with the Covent line and allow the sofa to stand out as a clear and strong volume in the room. Meanwhile, the spacious seat and four generous cushions invite you to sink into softness and warmth.

## Covent Club Chair

*Arde*

The existing Covent Chair and Covent Lounge Chair fuse their best assets in the Covent Club Chair. This new family member offers great sitting comfort while maintaining a visual lightness and an upright seating position suitable for dining. Extended upholstered surfaces and empty spaces create a silhouette defined by both softness and precision.

## Covent Lounge Chair Narrow

Arde

This younger sibling to the Covent Lounge Chair has a slimmer frame to accommodate smaller spaces or the need to fit in multiple seats in a lounge environment. The Covent Lounge Chair Narrow bears the same timeless expression as its predecessor, but in a neatly smaller format. Expert craftsmanship and gentle curves are the main features of this inviting furniture series designed by Arde.

## Covent Chair

*Arde*

The Covent Chair displays a comforting simplicity, a soft embrace suitable for a long evening around the dinner table. Inspired by the geometry of Mondrian's line work, its slim frame shows an asymmetry that defies its strength, presenting a floating cocoon of soft fabrics or leather. A chair that has paired traditional craftsmanship with a truly modern form.

## Missing Chair

*Regular Company*

The Missing Chair appears as if a simple line drawing has sprung into life. Sensual yet strong, the soft curve of each line creates a whimsy that is hard to describe. Straight lines have been softened, allowing the timber seat and back to appear as if floating above the thin steel frame. What remains are the bare essentials in our own interpretation of the humble cafe chair: light, stackable and durable, completed by a highly comfortable silhouette.

## Florence Dining Table

*New Works Studio*

Following on from the Florence Shelf, the Florence Dining Table demonstrates the same visual lightness and beautiful simplicity. A lightness that allows the table to un-obstruct life's objects, whether in-use or on display. Its sleek frame and timeless table top allow you to focus on the contents of living.

## Florence Coffee & Side Table

*New Works Studio*

With the Florence Coffee and Side Table, the simple lines of the Florence family have been brought into more intimate surroundings. These smaller family members seek to provide the perfect platform on which to display your favourite objects.

## Atlas Coffee Table

*John Astbury*

Named after the mythical Titan condemned to hold up the heavens on his shoulders, the Atlas Table stands strongly with its solid legs supporting the spacious tabletop. The meeting and contrast between the legs and the tabletop is central to the design, where each element exaggerates the other giving the table its distinct presence and brutalist feel.

*Nørgaard & Kechayas*

Functionally sitting between a lounge and an armchair, Tembo's extended arms invite you into its warm embrace. Its unique form allows the Tembo Lounge Chair to be social, while at the same time creating a space for reflection. The big, soft elephants ear exterior provides a striking form, while the choice of colours and textures can create a cosy addition, or a bold statement piece.

## Mass Series

*Lim+Lu*

Mixing a strong connection to Scandinavian materiality and craftsmanship with a modern approach to functionality, the Mass series caters for a range of environments and activities; while exuding sophistication through each tailored line. A sculptural simplicity and honest palate of materials bring the family together.

## Mass Side Table and Coffee Table High

*Lim + Lu*

The versatile Mass Side Table presents an elegant and stately platform for sculptural objects, still it is roomy enough to hold a table lamp while leaving space for putting down your book or coffee cup. The Mass Coffee Table High is perfect for those who wish for a taller and slightly slimmer table in the same simple design as the original Mass Coffee Table. Like the rest of the Mass family a beautiful walnut veneer takes centre stage, providing a warm and steady base for the items you choose to place on the tables.

## New Works Shelving System

*Knut Bendik Humlevik*

Sometimes the simplest pieces prove to be the most difficult to find, say, the quintessential wall shelf. With understated details and intelligible flexibility, the New Works Shelving System aims to be just that. Designed to effortlessly blend into a variety of spaces, this simple shelving system continues New Works' ongoing quest of creating elevated basics. A system that is meant to grow – in your home and in range – to accommodate various storage needs.

## NW Shelving System - Wardrobe

*Knut Bendik Humlevik*

With new elements for the storage of clothing, the New Works Shelving System enters the hallway and wardrobe, adding a refined appearance to otherwise practical furniture pieces. A combined hat shelf and hanger, a shoe shelf, and a coat rack can be combined with the system's wall bars and shelves to create organised and attractive open storage solutions. With the same elevated simplicity in the details, which characterises the shelving system, your wardrobe wall shelf will appear as a beautiful whole.

## NW Shelving System - Study

*Knut Bendik Humlevik*

The New Works Desk element is ideal for creating a nook for work, homework, drawing or other creative pursuits, wherever in your home you may need it. The New Works Desk follows the design traits of the New Works Standard Shelf with its extended metal supports framing the desk. It features an outlet for cables, which holds them neatly in place and keeps their technical expression away from your home environment.

## May Outdoor Series

*Hannes & Fritz*

The May series takes the New Works universe alfresco with outdoor furniture for the garden, patio, or balcony. The understated, monochromatic appearance of the May family is detailed without being technical. As the light steel sheet tightly wraps itself around the chunky steel frame, it forms a strong and comfortable seat, slightly curved so that it gently hugs the body. A slit through the seat allows for water drainage and adds a subtle detail to the otherwise uniform surface. Mirrored in the tables, it creates a repetition of lines that brings lightness, direction, and unity to the family.

OBJECTS

## Pleat Pitcher

*Omayra Maymó*

The Pleat Pitcher adds to our growing collection of table top items that mix everyday functionality with a sculptural touch. Alongside Ripple and Aura, a polished stainless steel silhouette allows it to reflect its surroundings whilst maintaining a unique presence. With one simple pull on the cylindrical exterior, a perfect spout is formed. Whilst creating a highly functional piece, this action accentuates both the strength and simplicity of the Pleat Pitcher.

## Rise & Shine Wall Mirror

*Hunting & Narud*

The Rise & Shine Wall Mirror utilises bold forms with an asymmetrical composition to create an unfolding feature within any space. A softening oak centre point allows the mirror and brass components to push and pull against each other, providing an ever-changing point of reflection. Whether employed for different functions, or simply to create an intriguing interior sculpture, Rise & Shine provides a centrepiece full of balance and movement.

A STUDY is a passionate exploration of material and form, undertaken by the New Works design team with the help of selected collaborators. An artistic approach gives rise to objects of unexpected beauty in a collection that grows organically over time.

## A Study 001 / Blæhr Vase

*Linnea Ek Blæhr*

The Blæhr Vase tests the boundaries of mouth blown glass with a timber moulded form that grows with each edition. An organic object that pushes and pulls the hot glass to take a unique and irregular form. Reflections hit the undulating exterior of the vase to create a centrepiece with depth and character.
