

PASSERELLE TABLE COLLECTION

PRODUCT FACT SHEET

PASSERELLE TABLE COLLECTION

DESIGN BY RONAN AND ERWAN BOUROULLEC, 2022

Inspired by the uncluttered aesthetics of classic Shaker furniture, French designers Ronan and Erwan Bouroullec designed Passerelle – an updated interpretation sharing the same simplicity and quality in a more contemporary context to suit modern lifestyle requirements. With a well-balanced, flat-packed construction, the tabletop features solid wooden edges and top surface in veneer or linoleum, with the core made of Lisocore® – an advanced, high-quality material that offers great strength yet is extremely light and easy to move around. The table frame is equally robust and functional, with solid wooden legs and aluminium and steel crossbar that strengthen and stabilise the table. Encapsulating the clean functionality and utilitarian approach of the Shaker movement, Passerelle is designed for social events, with a shape and construction that can accommodate most kinds of seating, while its variety of material and colour options amplify Passerelle's multifunctionality, making it suitable for using as a desk, high table, or dining table in both private and public spaces.

HIGHLIGHTS

- Multifunctional collection of tables in different sizes, materials and colours.
- Universal Shaker-inspired table featuring a well-balanced, flat-packed construction.
- The tabletop features solid wooden edges and top surface in veneer or linoleum.
- The table is extremely light and easy to move around because of the core material Lisocore®
- The frame is equally robust and functional, with a crossbar that strengthens and stabilises the table.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

MATERIALS

TABLETOP

34 mm Lisocore tabletop with linoleum or veneer. 7 mm tabletop edge in solid wood. Veneer tabletop has 70 mm cross stitched veneer on short ends.

FRAME

Water-based lacquered solid wood frame, veneered plywood upright with solid wood edges.

CROSSBAR

Powder coated extruded aluminium and solid steel bolt. Adjustable.

GLIDER

Integrated screw-in adjustable glider in plastic. Adjustable up to 12 mm. Rubber glider between height adjustable gliders.

CONSTRUCTION

Knock-down frame construction. Tabletop with pre-mounted crossbar in aluminium and steel. Leg sections mount to tabletop and crossbar with screws. Tabletop is levelled by using included wrench. Requires assembly.

COUNTRY OF ORIGIN

Denmark

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
