ATHEN

Hit the deep notes this spring with our throw Athen in the two beautiful colors Beetroot and Rosewood. Two colors inspired by nature and colors that evoke images of the moody beauty of ripe plums or a good Burgundy wine – deep and warm red colors, which only become richer and more sophisticated when mixed with other materials in the interior. Beetroot and Rosewood were introduced last season with huge success on Livø and Lima. With the launch of Athen in these colors, you can now use the saturated red tones whether you love your throw in a voluminous design made of New Zealand lambswool, or whether you prefer the alpaca throws that are light as a feather against the skin. Or you can combine both qualities for a tone-in-tone look that allows the element of tactility to be in focus.

SANTA FE

Taking our cue from nature we proudly present Santa Fe – an elegant, light, and timeless throw that sparks a mindful atmosphere of lightness and warmth. Santa Fe is launched in three colors Umber, Limestone, and Walnut Brown – colors defined as new neutrals. Colors with something fundamentally calm and harmonic surrounding them. Limestone and Walnut Brown are combined with a warm white hue in a check pattern, while Umber is combined with a calming light grey in a check pattern as well. A design set to beautifully harmonize with and create intriguing spaces within a home full of light furniture, wooden surfaces, and a bright color scale. Santa Fe is made of 100% baby alpaca – an exquisite quality that invites you to slow down.
