

AAC 153 SOFT DUO

PRODUCT FACT SHEET

AAC 153 SOFT DUO

DESIGN BY HEE WELLING, 2020

The AAC 153 Soft Duo counterbalances its soft quilted shell and contrasting materials with the high functionality and modern expression of the five-legged castor base. Retaining the same high backrest and generous seat that characterises the series, the base is designed with a gas lift that can adjust the seat height by a range of 14cm. The base is available in polished or powder-coated aluminium, and the quilted shell is offered with two different textiles or leathers to create a unique look that works equally well in corporate, public, or private contexts.

HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa.
- Soft quilted upholstery in selected fabric and leather combinations on front and back.
- Variety of textiles and base finishes.
- The 5-legged base is equipped with a semi-automatic gas lift.
- Adjustable seat height varies from 42 to 56 cm.
- Other base options are: 4-star swivel base, moulded plywood base and 4-leg steel tube base.
- Other upholstery options are: a non-quilted full upholstery in a large selection of fabrics and leathers or a soft quilted version with added wadding in a large selection of fabrics and leathers.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

DIMENSIONS

WIDTH 69 CM
DEPTH 69 CM
HEIGHT 83-95 CM
SEAT HEIGHT 42-56 CM
SEAT DEPTH 45 CM

MATERIALS

SHELL
10 mm injection moulded polypropylene with 10% glass fibre. Full upholstered.

FOAM
15 mm cut foam, 15 mm super soft cut foam and 40 mm wadding.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
