SPRING / SUMMER 2024

YOUR STELLAR SIDEKICK

Meet Norbitt, your cosmic companion who's here to light up your universe. With his little feet, he's ready to stand by your side, making even the most mundane tasks feel like intergalactic adventures.

Cotton White | NB-CW

This rechargeable explorer is compact yet powerful, illuminating any corner with a 360-degree swivel. Norbitt offers three dimming settings to set the mood, from 'subtle starlight' to 'interstellar disco'.

Cloudy Blue | NB-CB

Norbitt is quite an outdoorsy fella, coming from outer space and all, so he can accompany you on your outside adventures, whether you're grilling marshmallows or stargazing - his favourite. With six dazzling colours to choose from, he's got more shades than a supernova. So there you have it, say hello to your new pint-sized, illuminating friend, always ready to shed some light on your day.

HELLO MR. WATTSON

Meet the iconic Mr. Wattson. He's a looker, isn't he? But there's more to him than his good looks and he thinks it's about time people knew that. "You wouldn't say, but I have a powerful LED bulb that can brighten any room and 139 glass dimples that create a warmer atmosphere than your mother." No need to get personal Mr. Wattson! We believe you.

FLEXIBLE MR. WATTSON

Mr. Wattson's flexible limbs allow him to live on the edge. "What can I say? I'm an adrenaline junkie." We think your dangling legs are more 'cute' than 'adrenaline junkie' but we'll let you have it Mr. Wattson.

METAL HEAD MR. WATTSON

Mr. Wattson noticed that humans sometimes don't themselves in shiny metals. "Why can't I?" And so, he now comes in brass matt black (his bling look) as well as black on black (his gangsta look).

HEY LOOK, IT'S MINI ME

Mini Wattson is Mr. Wattson's adorable mini-sized USB-powered friend. Some would think it's difficult growing up in the shadow of Mr. Wattson. But Mini Wattson points out that his situation is somewhat different as Mr. Wattson is a light and so he actually grew up in the light of Mr. Wattson, which is a good place to be.

HANG OUT WITH MR. WATTSON

-14-

It shouldn't come as a surprise that Mr. Wattson likes the spotlight. What you maybe didn't know is that he likes the environment too. And so, his pendant light makes use of the latest energy-saving LED technology. Which means he can hang out with you for hours on end, guilt-free. More wine anyone?

MEGA SIZE, MEGA IMPRESSIVE

Mega Wattson taught Mr. Wattson everything he knows about lighting. Mr. Wattson looks up to Mega Wattson because he's taller. But also because he's a super-sized version of Mr. Wattson that can work just about any room.

TOP-SHELF

Mr. Wattson now has a special floating shelf made just for him. Seems crazy, right? Well, he didn't like his cable getting in the way, so we designed the perfect shelf to tuck it neatly behind. Also available for the Mini Wattson - we couldn't leave him out, now could we?

MR. WATTSON'S HOBBIES

Snowboard Table Stand | SB-SWR-SN

If Mr. Wattson had a Tinder profile, he'd definitely lead with this photo. Between you and I, he's not really an outdoors kind of guy. But you could indulge this fantasy of his by buying him a surfboard or a snowboard table stand. And maybe take a pic for him.
