TRAY TABLE

HAY

The metal Tray Table is a multi-functional piece of furniture that can easily be adapted to fit your needs.

When the tray top is in place, it can be used as a bedside table or coffee table, and when the tray top is removed, it becomes a regular tray that can be used to carry items.

With a little care you can prolong the life of your furniture. Follow the instructions for the materials of your specific product to make sure that it stays in the best shape for as long as possible.

The information below is only intended as a general guideline. For more information on how to remove specific stains, please enquire where you bought the furniture.

- / Always remove stains quickly before they can do any permanent damage to the furniture.
- / When you move your furniture, make sure you lift it rather than pulling or pushing it to avoid damaging the floor, legs and mountings.
- / Use coasters under damp, hot or coloured objects to avoid permanent stains.
- / Be careful not to scratch or damage the surface with sharp objects.
- / Avoid improper use such as putting your feet on the table or standing on it.

POWDER COATED STEEL

Wipe with a clean cloth wrung in water or in a solution of water and a neutral detergent. Remove soap residue immediately using a clean, dry cloth. Avoid using scouring cream or scouring pads, as they may scratch the surface. Do not use solvents as they may have an adverse effect on the coating. Never use acetic acid or citric acid.
