Materials

Frame:

Powder Coated Steel

Shelves:

MDF, Black Stained Oak Veneer

ZET is a smart shelving system with a light, airy, and minimalistic appearance. The whole system consists of two components only: the wooden u-shaped shelves and the metal frame construction. By assembling those two parts, you are able to build several different formations in order to achieve the expression you prefer – right now and going forward. ZET is produced in high quality materials and the stabilising system provides a firm stability. The design is easily assembled and can be changed and remodelled whenever you want.

About the Designer

Florian Kallus and Sebastian Schneider founded Kaschkasch in 2011. The German designer duo always strives to get the maximum out of the minimum by breaking every idea down to its essential elements. Every piece of their work has a little something to discover – something that speaks of the designers' love for details.

Notes to Editor

Menu is a Scandinavian design brand with a simple philosophy; to make the world better, less complicated and a little bit nicer to wake up to. Menu collaborate with super-talented international designers, to produce high quality design with a crisp Scandinavian look. Menu work with local craftsmen from around the world to preserve traditional skills, whilst creating objects which are timeless and can be treasured for a lifetime. Composed of lighting, furniture and accessories, the Menu collection provides clever solutions for modern living.
