Metal care & maintenance guide

HANDVÄRK uses powder coated steel for all products with metal frames and powder coated black metal shades for the Studio lamp series.

GUIDELINES

Unpack the metal parts carefully to avoid damage and place them on cardboard or a similar substrates before assembling.

We recommend using gloves when handling the lamps to avoid leaving marks.

DAILY CLEANING

Wipe metal surfaces with a clean cloth to remove day to day marks and dust.

Clean lamps with a soft dry cloth. Always switch off the electricity before cleaning.
