Corbel Shelf

BY KRØYER-SÆTTER-LASSEN

Driven by an appreciation of great materials and honest, functional design, Krøyer-Sætter-Lassen has created the Corbel Shelf for MENU – a versatile floating ledge for use as a bedside or side table or display platform for much-loved treasures.

Taking its name and design cues from architectural weight-bearing brackets traditionally made from stone or wood, Corbel is a modernist, wall-mounted podium that combines contrasting materials to arresting effect. Krøyer-Sætter-Lassen's idea for the Corbel Shelf came from time spent documenting corbels in their native Copenhagen.

Supremely simple in its shape, the marble, wood and metal design it unites geometric elements in one functional piece. The Carrara marble has been selected for its beauty and sustainability; made from stunning quarry off-cuts that would otherwise have been discarded. The white stone stands in beautiful contrast to the stained oak and powder coated metal. Expressive yet understated, it attaches to a wall with concealed screws to underscore its minimalist silhouette, making it ideal for a hall, bedroom or living room wall, or as a part of a larger installation.

A Sense of Community

MENU has always been fascinated by the way in which individuals and spaces can be united through great design. In our pursuit to craft furniture, lighting and interior accessories shaped by purposeful details, high-quality materials and human needs, we create strong and lasting relations between designers, manufacturers and customers. The sense of community that results from this union of like-minded individuals fosters a deeper sense of belonging – and products that stand the test of time, inviting human connection, inspiration and experimentation to push the boundaries of modern design. We truly believe that when we work collectively, we achieve more than we do individually: the sum of our work and of our connections is always greater than its parts, and our softly minimal designs and collaborative spirit help to join the dots between the home, the workplace and the service industry, redefining how we use space and, ultimately, how we connect to those around us.
