Hook Coat Stand

Product facts

Materials

Wood Solid oak Finish Hardwax oil Metal Powder-coated steel

Technical features

Frame

Hook Coat Stand's metal frame is made from bent steel rods. It has a powder-coated and fine structure granulated surface finish available in four colours.

Metal knobs

Steel knobs are welded to the frame structure and come in line with the metal frame color.

Wooden knob

The solid oak knob has a metal base in the same powder-coated color as the metal frame. The wooden part has laser engraved branding on the inside and is available in a plant-based Hardwax oil finish (white oil color), which retains the wood's natural state. Hanger bolts needed for assembly are included in the packaging.

Base and post

Wooden base and stand post are made out of solid oak with a woodturning lathe technology. Both have metal inserts needed for assembly. At the bottom of the base, there is a circular rubber seal strip for better grip to the floor surface.

Cleaning

Please see Product or Material page on our website.

Notes to consider

Variations

Natural variations in wood color and surface may occur. Regular maintenance will ensure the wood preserves its authentic beauty and can last for generations.

Product changes

Please note that Gazzda reserves the right to alter construction and design without notice.

Dimensions (tolerances)

The dimensions shown are indicative, they may vary due to the natural properties of wood, season, or manufacturing processes. Deviations from the specified size may occur, usually no more than 1 cm.
