# **KNIT**

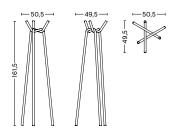

DESIGN BY JIN KURAMOTO, 2021

Designed by Japanese Jin Kuramoto, Knit is a simple and iconic coat rack with a distinctive sculptural design. Comprising three powder lacquered steel pipes that are interconnected in a three-dimensional way, the pipes are securely 'knitted' together to support each other and create the strength of the body. Inspired by the tactile experience of touching materials and the experimental processes of bending and knitting ropes and metal rods, Knit was developed as an extension of HAY's wardrobe and garment hanging options in a flat-packed design that is easy to assemble. Featuring a high gloss finish that creates a lustrous effect, Knit can be used to add functionality and visual interest to hallways, bedrooms and other private or public areas.

### HIGHLIGHTS

- ·Free-standing coat rack with a simple yet iconic and sculptural design.
- ·The unique shape of the structure is the feature of the design.
- $\cdot \text{The three metal pipes are connected in a three-dimensional way so that they support each other.} \\$
- ·Knit has a smart flat-pack design that only uses three bolts to assemble the product.
- · Available in different colours and finishes.
- $\cdot$  Suitable for a wide variety of private and public environments.

### **DIMENSIONS**

WIDTH 50,5 CM DEPTH 49,5 CM HEIGHT 161,5 CM

# **MATERIALS**

**PROFILE** 

 $\varnothing$ 30 mm bended powder coated steel tube legs incl. felt pads.

# CONSTRUCTION

Three Ø30 mm bent steel tube legs. Closed with steel caps welded to the tube in both ends. With float drill to attach screws. To be assembled by the customer. Make sure to hang any garments or bags evenly on the hooks to avoid the coat rack from overbalancing.

### **COUNTRY OF ORIGIN**

China

## **COLOUR & FINISH**

Please note that the colour codes are indicative.

BLACK POWDER COATED STEEL

WHITE POWDER COATED STEE

GREY POWDER COATED STEEL

TOFFEE POWDER COATED STEEL HIGH GLOSS

# SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
