# Snaregade Rectangular Table

Originally designed as an exclusive table for Bjarne Hansen – the CEO and founder of Menu – Norm Architects initially envisioned the piece solely for Bjarne’s private living room. Norm, however, continued manufacturing the piece due to its multi-functional nature, as the table was to be used in Norm’s design studio. Snaregade has been in use ever since and is now available in white.

With its minimalist good looks and practicality, the Snaregade Table can be utilised within a variety of different spaces – an office desk, its rectangular variant as an elegant dining table, or the oval alternative would also be equally suited to kitchens and meeting rooms.

Uniquely constructed, the iconic Snaregade table now comes with a solid walnut top, adding warmth, quality and tactility to the table. With its graphic, contemporary and recognisable leg design, the walnut top gives the table a mid-century modern feel with a nod to Danish design’s heyday – the Golden Age. Reimagining Modernism altogether, the Snaregade table is the perfect reinterpretation of a new design classic that respects the past and celebrates the future.

## About the Designer

A Scandinavian company through and through, Norm Architects are celebrated for their clean, minimalistic designs. Its founders Kasper Rønn and Jonas Bjerre-Poulsen argue that minimalism is nothing new: “It has been the norm in many cultures all over the globe since the beginning of civilization. People have strived for material poverty as a way to inner luxury. Reduction and perfection have been the main goal for both craftsmen and inventors – because avoiding the irrelevant meant emphasising the important.”

The pursuit of purity, simplicity and timelessness is at the heart of everything undertaken by Norm.
