**BUSTER + PUNCH STARTED  
IN A GARAGE IN EAST LONDON,  
BUILDING CUSTOM MOTORBIKES.**

Our love for working with rare, solid metals has led us to transform everyday functional fittings into extraordinary home essentials.

From the light bulb, the dimmer switch and the pendant lamp, to the door handle and the cabinet pull, Buster + Punch has created an innovative collection of unexpected design and lifestyle details.

# BEHIND THE LOOKS

Buster + Punch has three looks: CROSS, LINEAR and CAST. Each look has its own set of influences and aesthetic attributes to help you create the perfect interior styling. CROSS is industrial, made from solid metal bar with a cross knurling created using a diamond-tip CNC lathe, it features a solid metal coin screw detail. LINEAR has an elegant, long knurl that runs along its slimmed down solid metal bar and has a tapered torx screw detail. CAST is an architectural design where rough cast elements meet a smooth, hand-polished solid metal bar and is capped with solid metal spun screws. The nature of the casting process means each piece is totally unique.

Cast cabinet hardware brings a distinctive architectural look to your interiors. The contrasts of rough and smooth have a dynamic aesthetic that adds strength to any style of setting. The range features one-of-a-kind rough cast knuckles and grips, hand-polished solid metal bars and is finished with spun screw detailing. The collection includes furniture knobs, pull bars, closet bars and T-bars.

Linear cabinet hardware adds a real sense of elegance and refinement to everything it touches. The collection is made from solid metal bar, with torx screw detailing, and the crisp, linear diamond-cut knurling that catches the light. All refined by hand and packaged for a great unboxing experience. The range includes cabinet knobs, L-bars, pull bars and the striking B+P precious bar.

The original solid metal hardware collection, our iconic Cross look lays the foundation for styling with details at the core of a space. With a refined industrial aesthetic that feels as good as it looks, the diamond-cut cross knurling pattern adds presence and drama in versatile finishes that transform your interiors. Cross hardware includes furniture knobs, pull bars, closet bars, hooks and T-bars.

Linear door hardware is elegant and refined. With a linear knurling pattern and slimmed proportions, it has a stylish and confident hand feel. Door handles have a unique oval stem, and its torx screw adds a gentle taper to the design. The range includes door handles and door knobs, which can be combined with our hinges, strike plates and escutcheon plates for a harmonious B+P door look.

Exhaust is a flexible range of spotlights and pendants that bring versatile task lighting to any space, with styling to match. Its solid metal powder coated body is brought to life with functional detailing. It features a knurled solid metal baffle to direct light, housing a honeycomb structure to reduce glare, and comes in a pendant, surface, spotlight or track light variation.

[ info. **FORKED.** ]

A tribute to solid metal and the techniques used to bring them to life, the modular Forked collection enthrals the eye in a piece that’s one of our largest in terms of physical scale and presence. Choose from a ceiling or pendant light, add a shade, globe or both, in the finish of your choice. Machined and handmade elements are fused into one design, finished with our one-of-a-kind rough cast fork detail. Each light comes with its own specially-designed B+P LED light bulb. For situations where you want a soft decorative light, the smoked globe variants are a good direction to explore. For a more functional ambient light choose a Forked with an opal globe. Adding a shade can also help to shape Forked’s light qualities, making it more directional.

Sometimes a space needs a Hero. Hero's solid metal, powder coated ring has subtle references to the traditions of blacksmithing and forging. Choose whether you want to hang its six solid metal cross knurled pendants centrally or run them around the light's circumference. With matching solid metal cord weights and coin screw detailing. Hero is a perfect complement to our Hooked range, which shares similar details.

Heavy Metal is more than a pendant. It's a statement. The light's solid metal construction, diamond-cut cross knurled body and range of finishes have made it a permanent Buster + Punch favourite across the world. A simple but provocative design that works effortlessly in all spaces and settings. Select from linear or cross knurled in multiple finishes.

Buster + Punch Chandeliers are powerful pieces; decadent and impactful. Designed around 10, 19 or 31 of our Heavy Metal or Exhaust pendants, with bespoke drop heights and two formations, cascade and classic. The Exhaust Chandeliers are perfect for scenarios that need more of an intimate light, like above dining tables, or social zones. In contrast, Heavy Metal Chandeliers add an ambient glow that's well-suited for interiors that need a real statement piece.

# FINISHES

[ finish. **STEEL.** ]

Made from solid stainless steel and refined by hand. This is our most durable finish and will remain the same crisp finish from the moment you take it out of the box for many years to come.

[ finish. **BLACK.** ]

Black is made from aluminium and then anodised to give a very consistent deep black finish.

[ finish. **BRASS.** ]

Made from solid brass which has been precision machined and then finished with two layers of durable satin lacquer. This finish will age slowly with time, moving from a radiant brass colour to a deeper more golden finish within a few years. For the Cast range, a stainless steel base is used, finished with a durable EPL coating to make it waterproof.

[ finish. **WELDERS BLACK.** ]

Welders Black is made from solid stainless steel with a unique black PVD coating technique making it highly durable. The result is a rich, deep off-black finish, reminiscent of the soft charcoals of an industrial furnace. Welders black is the epitome of beauty meets beast.

[ finish. **GUN METAL.** ]

Gun metal is made from solid stainless steel which is then finished in gun metal PVD. This is an extremely durable finish and will remain the same elegant finish from the moment you take it out of the box for many years to come.

[ finish. **SMOKED BRONZE.** ]

Made from solid brass and then hand finished with a special oxidising formula, before it is heated to give a beautiful dark bronze appearance. The finish is then hand brushed and a layer of satin lacquer applied. Smoked bronze is a 'living finish' which means it will age over time.

[ finish. **BURNT STEEL.** ]

Burnt steel is made from solid stainless steel and exposed to excessive heat to create a unique and natural burnt steel finish. The heat gives the steel a rainbow of blue, purple and yellow, ensuring that no two finishes are ever the same.

*fyi. In some cases other metal, coating and lacquer combinations may be used, if better suited to a specific function or product. I.e. Taps are made from a brass base finished with either nickel plating, paint or PVD coating.*

[ finish. **MATCHING.** ]

We make all of our products from the same solid metal finishes - steel, brass, gun metal, smoked bronze, black, welders black and on special occasions, burnt steel. This makes it super easy to match all your home details from light pendants to light switches, kitchen pulls to door handles.

[ our. **DESIGNER.** ]
