SERIF RELIEF

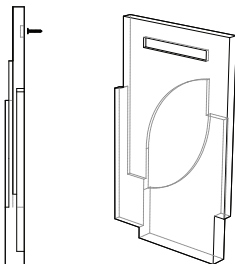

Congratulations on your new Kristina Dam Studio design!

The Serif Relief is made by hand and produced from recycled Katran cotton pulp. Cotton pulp is a 100% bio-degradable material made from upcycled cotton fabric waste, and minor differences in shape and colour may occur, making each Relief unique.

Be sure to use appropriate screws or nails when mounting the relief to the wall.

Remove dust and other dirt with a dry cloth only. Do not use water, solvents, chemicals, or cleaning agents with sanding qualities. These will permanently damage the surface, as the cotton pulp will absorb any liquid immediately and may deform the surface in shape or colour.

Indoor use only and keep away from wet areas.
