Godot is a comfortable and generous sofa series comprising 2- and 3-seater sofas \* as well as an armchair. The inner "spaces" of the sofa are designed in sizes allowing for a comfortable seating position without limiting the freedom of movement and the freedom to stretch your legs. The soft shapes of the upholstery are deliciously inviting and, also, constitute a marked contrast to the sofa's exterior of more simple and geometrical forms. The interior belongs to the occupant and the exterior belongs to the room.

The exterior vertical and rectangular surfaces allow for easy and natural placement of couches along with and close to walls as well as positioned centrally in the room; and, likewise, the feasibility of placing the furniture side by side as well as back to back. This feature makes Godot very usable in private as in public spaces.

## About the Designer

The company works within the fields of industrial, furniture and graphic design. The firm was only established in late 2010, but Boris and Aleksej have been working together for a number of years. In 1987, Boris co-founded Komplot Design, where Aleksej was employed as an assistant for more than 11 years. This long and fruitful cooperation has allowed them to develop a shared philosophy of design.

## Notes to Editor

Menu is a Scandinavian design brand with a simple philosophy; to make the world better, less complicated and a little bit nicer to wake up to. Menu collaborate with super-talented international designers, to produce high quality design with a crisp Scandinavian look. Menu work with local craftsmen from around the world to preserve traditional skills, whilst creating objects which are timeless and can be treasured for a lifetime. Composed of lighting, furniture and accessories, the Menu collection provides clever solutions for modern living.
