## Product description:

This is an archetypical chair by Form & Refine – made completely out of wood. The extraordinarily shaped seat inspired by the human body supports good posture and comfort. In addition, the solid organically shaped backrest gives the chair a minimalistic and personable style. The strong, solid legs combine with the veneer seat brings a surprising lightness and stunning visual sharpness to the chair. The exquisite backrest is steam bent and made out of one solid piece of wood.

## Designer's thoughts:

"With this chair we searched to balance something refined and robust at the same time. We aimed for a chair with distinct character and gave it elongated back legs that smoothly grip the curved backrest. It should also be stackable, comfortable and fit into any environment." - Herman Studio

## Finish:

Natural oil treated

White oil treated

Black stained, RAL Code 9005, Gloss 10
