Ena Mirror

Product facts

Material

Body	Solid oak
Finish	Hardwax oil

Technical features

Wooden base

Ena Mirror has routed solid oak edging and melamine faced particleboard backing. The back panel has four holes, which enables vertical and horizontal mounting orientation. Hook screws and plastic dowels needed for mounting are included in the packaging.

Mirror glass

CNC edged and 3 mm thick mirror glass is glued and precisely positioned on a wooden base, intentionally creating the little gap between the mirror glass and wooden base edge.

Finish

Solid wood finish is available in two plant-based Hardwax oil finishes (colours), which retain the wood's natural state, as a white or natural oil.

Cleaning

Please see [Product](#) or [Material](#) page on our website.

Notes to consider

Variations

Natural variations in wood color and surface may occur. Regular maintenance will ensure the wood preserves its authentic beauty and can last for generations.

Product changes

Please note that Gazzda reserves the right to alter construction and design without notice.

Dimensions (tolerances)

The dimensions shown are indicative, they may vary due to the natural properties of wood, season, or manufacturing processes. Deviations from the specified size may occur, usually no more than 1 cm.
